Osprey Video Expands Engineering and Manufacturing capabilities with move to new Flower Mound, Texas Headquarters

Flower Mound, TX (July 28, 2021) – Osprey Video, manufacturer of industry leading Hardware Encoders, Video Capture Cards and Video Workflow Accessories announced today the relocation of their operations to a larger, state of the art Facility in Flower Mound,

“Planning for the future, Osprey Video’s growth over the past years and the addition of in-house system integration capabilities required more space to optimize the engineering, design and production workflows. Our new home is equipped with scalable video workflow infrastructure for future growth of our hardware and software development team. The new location is 5 minutes from DFW Airport, we are looking forward to welcoming our customers and partners for a tour of the new facility.” - Roger Bieri, CEO
