

Talon Encoder / Decoder Workflows

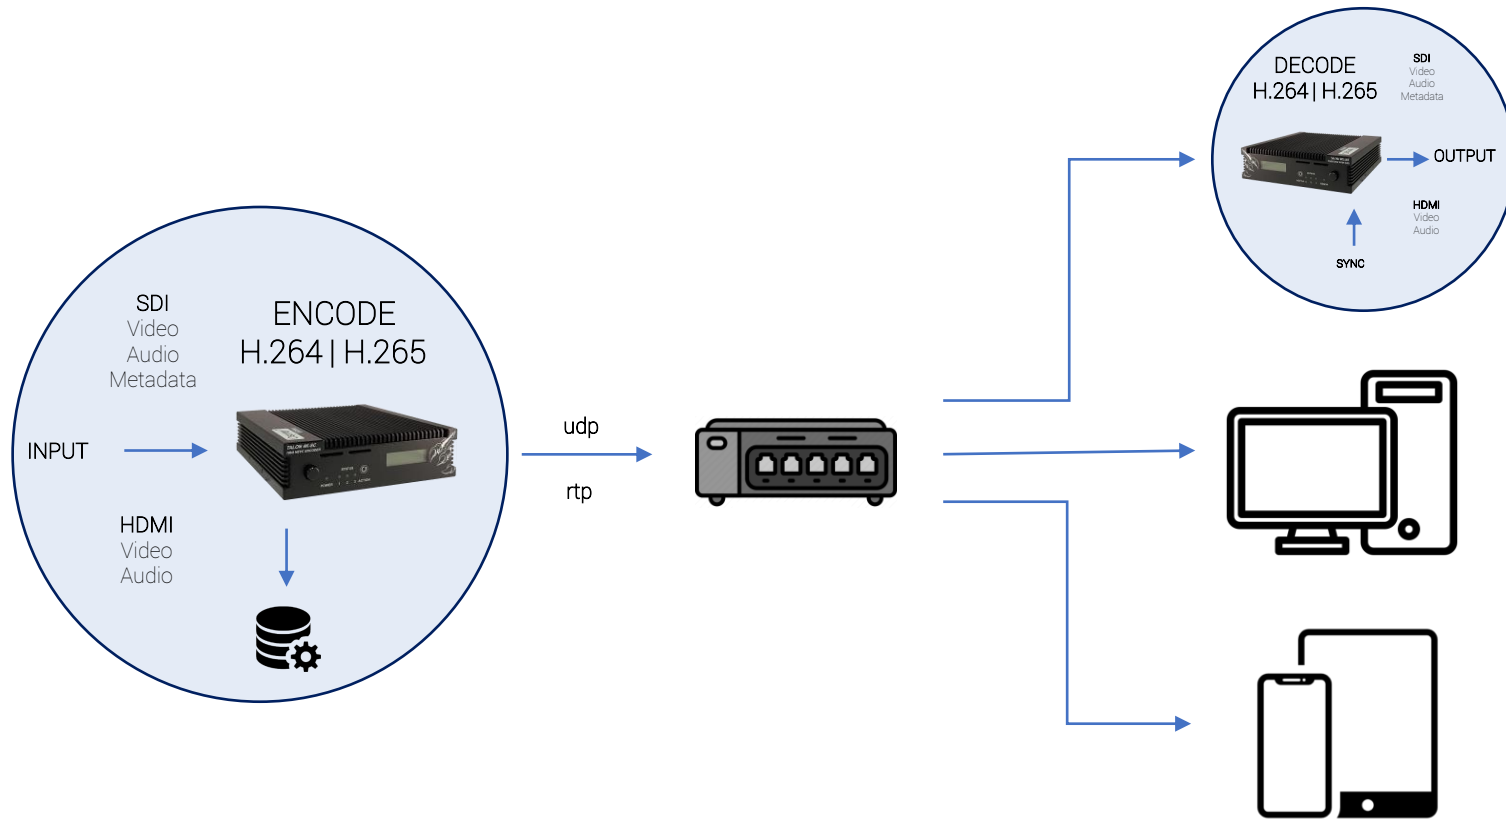

Fast, Secure and Reliable Cloud Point-to-Point
Native Talon Integrations

* CTP decoding future feature

Talon Encoder / Decoder Workflows

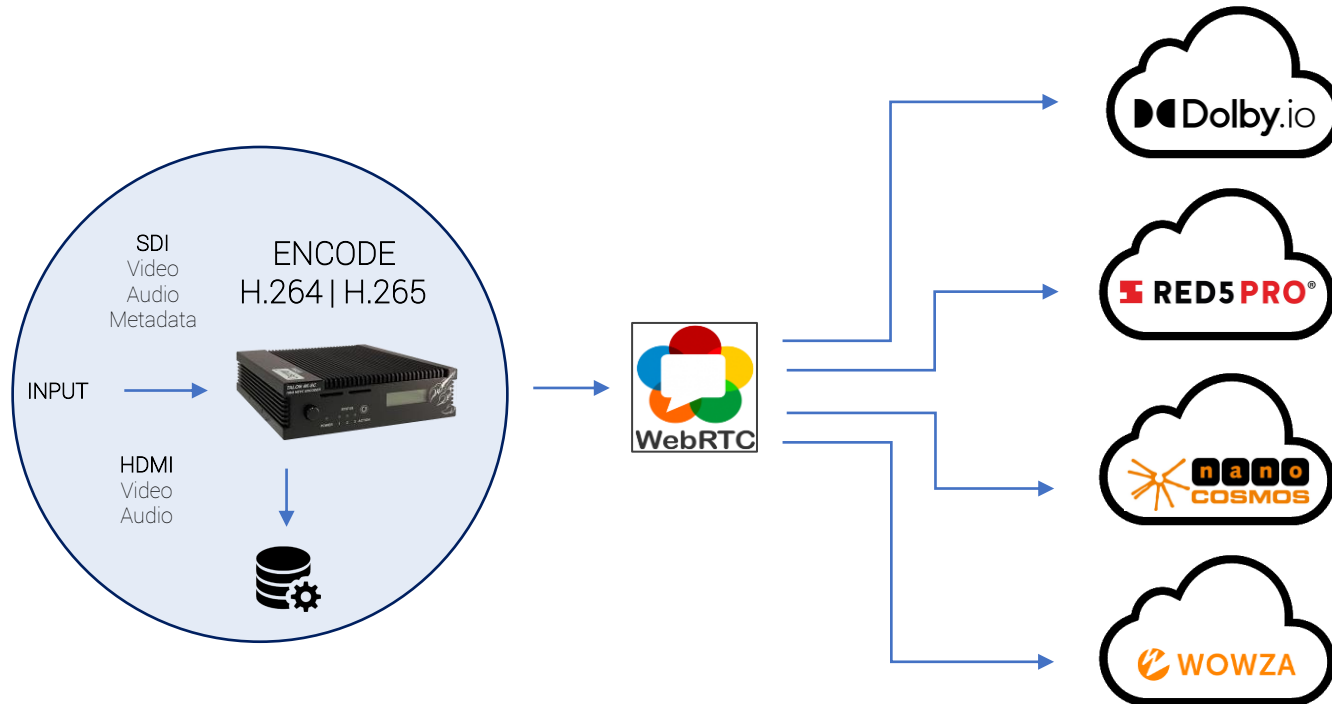

On-Premise IP Video Distribution with udp, rtp

Number of endpoints only limited by the network capacity

Talon Encoder / Decoder Workflows

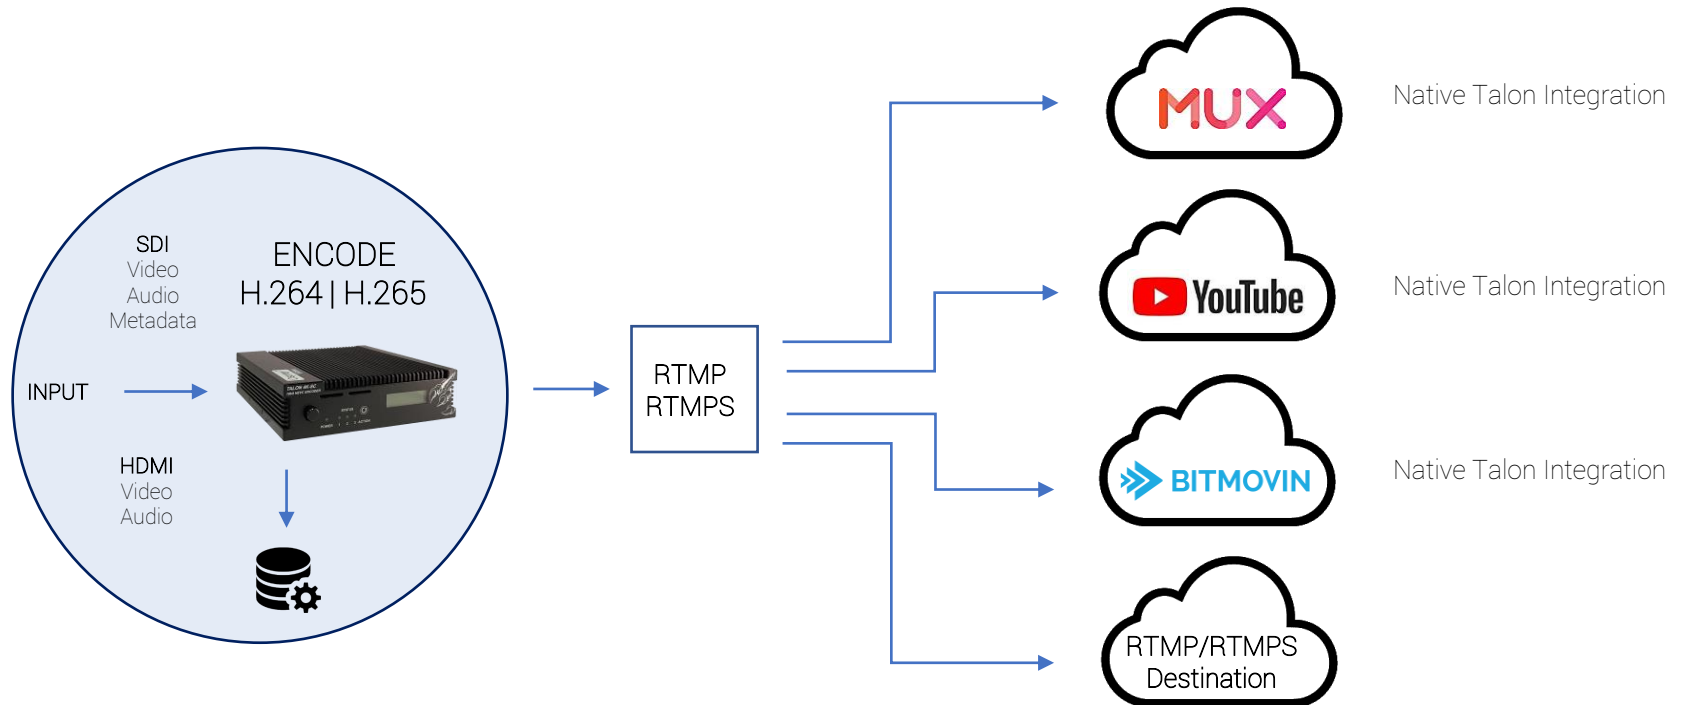

Low Latency WebRTC-HTTP ingestion protocol (WHIP) to Cloud CDN
Native Talon Integrations

Latency <50ms from Encoder Video Input to cloud ingest point
One input to one cloud destination

Talon Encoder / Decoder Workflows

RTMP/RTMPS to any Cloud CDN

Stream to any Cloud CDN that supports RTMP or RTMPS
One input – two simultaneous destinations

Talon Encoder / Decoder Workflows

Remote Production
